Frequently Asked Questions

What is Rx Savings Solutions? How does it work?

Rx Savings Solutions is a program that is part of your health plan. This confidential program provides you and your plan dependents with cost-saving opportunities on your medications. Rx Savings Solutions looks at the medications you take and prepares a personalized prescription savings plan for you. When there is an opportunity to save, Rx Savings Solutions will send you a letter or email letting you know to log in and view your savings opportunities. Rx Savings Solutions is a fully HIPAA-compliant company. To learn more about how Rx Savings Solutions handles your information, visit the privacy policy at: https://rxsavingssolutions.com/privacy-policy.

Is this the same as my current insurance or mail-order pharmacy?

Rx Savings Solutions is not the same as your prescription insurance and it is not a mail order pharmacy. It is a transparency program that is being offered to you and your health plan dependents to help you understand your prescription insurance and help you alleviate your out-of-pocket costs for prescription medications. It aims to find your medication for the lowest price possible at the pharmacy you choose.

How do I get the savings Rx Savings Solutions has found for me?

Details of each savings opportunity are available on your Rx Savings Solutions dashboard. To access, log into your SelectHealth Member Account at SelectHealth.org/RxSavings. The secure website will walk you through the rest of these steps. There is even a personalized letter to send to your prescriber, who will be able to see the suggestions that have been made. Rx Savings Solutions will also notify you when we find savings on your prescriptions, based on your User Settings contact preferences.

What if I am not interested in the savings suggestions made?

The savings Rx Savings Solutions finds for you are suggestions for making more informed decisions about your healthcare. You may use the suggestions if you and your prescriber feel they are a good fit for you. If not, there is no requirement to use the savings found.

When I log in to my account, I don't see one of the medications I'm taking. Why isn't it there and how do I add it?

The medications listed on your dashboard are those which you have filled in the last six months. In addition, the claims information that Rx Savings Solutions receives from your insurance company may come at a slight delay. If you have started a new medication, you can wait for the information from your insurance company to be delivered to Rx Savings Solutions, or you can use the Search for a Medication tool located on your dashboard.

How do I look at my dependent's prescriptions?

You will have access to savings information for any minor dependents on your dashboard. Adult dependents will be required to create their own profile and must grant you permission in order to share their prescription information with you, but you can see on your dashboard whether they have a savings alert.
